from the Principal

Jan Stone

As we near the finish line for term 3, I am delighted to reflect on a super busy and successful term filled with opportunities for learning, celebration, and community connection. Our students and staff have embraced every experience with enthusiasm, and it has been wonderful to see so many moments of growth and excellence across the school.

This newsletter will reflect and celebrate the many wonderful experiences that our school community enjoyed over term 3. We have certainly packed in some excitement, with the Melbourne PFNA tour, Clue theatre production, YoH Fest, Alcoa Prospects Program, NAIDOC week, Murray Bridge Pedal Prix in Adelaide, Year 12 Ball and House Athletics carnival among the many highlights. Please take the time to appreciate the fantastic effort that our staff and students have put in to make the most of every opportunity, and to represent Pinjarra Senior High School with pride and distinction.

Term 4 will bring many more opportunities to celebrate our wonderful school community. I look forward to sharing these with you in the coming weeks. As we look ahead to Term 4, I encourage all students to stay focused on their learning and to finish the year with determination and pride. Thank you to all students, staff and parents and caregivers for your ongoing support and contributions that make Pinjarra Senior High School a great place to learn, to work and to belong. I wish everyone a safe and restful school holiday break.

2027 YEAR 7 ENROLMENTS NOW DUE

Families are reminded that Year 7 enrolments for 2027 are now DUE.

To ensure your child can participate in our Orientation and Transition Days, they must be fully enrolled at the school.

Pinjarra Senior High School

Chappos' column

Now this is more like it, students preparing staff a meal! There've got to be some perks to working in a high school with students studying Hospitality, and the Arancini Balls these students served did not disappoint! True to form Term 3 has been full of great events, and the first one I had the pleasure of being involved in was taking our Year 11 ATAR Geography students to Sandalford Winery in the Swan Valley! Alas, no wine tasting could be had on a school excursion but we had fun and learnt a lot!

Another great opportunity I had to build on relationships with students came more recently whilst driving some of our Aboriginal students to Murdoch University for a "Deadly Dreaming" program, aimed at encouraging them into tertiary studies. Some of the activities at Murdoch included visiting the Vet school and using clay in a facial reconstruction forensic science activity, which was entertaining, and enabled some unexpected students to shine!

This term I've enjoyed a number of opportunities to work with our Year 10 cohort, first of all assisting with the School Health Expo and then taking all of the Year 10 health classes to discuss how to build better, healthier relationships. In a world where we often see relationships breaking down I was really encouraged with how receptive the students were to these sessions. Breakfast Club has continued to go well this term, regularly feeding 40-50 students of a morning thanks to ongoing support from Foodbank, Pinjarra Lions Club from the Pinjarra Community Bank, and it's great now having a number of student volunteers helping run Breakfast Club.

The Athletics carnival, HASS Medieval Dress-up Day and Year 12 Ball were all a lot of fun and I have to say this was the best Ball we've had for years, in terms of pretty much everyone getting up dancing and getting on well together. My two Year 7 GRIT (Growth Resilience Integrity Traction) groups for this semester have also been gelling well together and all of these sorts of group events continue to encourage me that we can enjoy good community together when everyone is respectful of others, accepting of differences and looking to build each other up!

Praying you find good community and stay safe over the holidays, and I look forward to seeing everyone again next term!

Justin Hill
School Chaplain

YEAR 11 ATAR GEOGRAPHY EXCURSION AT SANDALFORD WINERY

On Tuesday, 4 August, our Year 11 ATAR Geography students travelled to Sandalford Winery in the Swan Valley to explore the geographical processes of globalisation, production, consumption and distribution within the wine industry.

Students were given a behind-the-scenes insight into the wine-making process, following the journey of the product from grape picking through to processing, bottling and distribution. They also toured the winery grounds and learned about the history of the Swan Valley and the important role the wine industry has played in shaping the region's landscape, economy and identity.

Throughout the excursion, students applied their classroom learning to a real-world context by completing fieldwork activities and producing detailed field sketches. The experience provided an excellent opportunity for students to observe how local industries are connected to national and global markets and how human activities can shape and transform places.
It was a valuable and engaging day of geographical learning, with students gaining a deeper understanding of the Swan Valley and the processes involved in getting a locally produced product from the vineyard to consumers around the world.

YEAR 12 GEOGRAPHY FIELD TRIP

Pinjarra Senior High School and Coodanup College Year 12 Geography students teamed up for an urban field trip on 7th August. The students spent the day investigating the planning behind the Perth Metropolitan Area and concentrating on the transportation challenge in Perth. We spent some time at Cockburn Central observing the sustainability and liveability features of that Transit Oriented Development before heading into the CBD, West and East Perth and Kings Park. All of the students worked well together to gather an insight into the importance of town planning for the future.

YEAR 11 BUSINESS STUDENTS ATTEND PEEL EMERGING LEADERS DAY

During week 9, the Year 11 Business Management and Enterprise students attended the PEEL Emerging Leaders Day, where they participated in a number of engaging workshops designed to develop leadership, entrepreneurial thinking, and workplace skills. Students also had the opportunity to network with representatives from local businesses and organisations, gaining valuable insights into career pathways and the attributes needed for success in the modern workforce. It was a fantastic experience that encouraged students to think creatively, build confidence, and connect their classroom learning with real-world opportunities.

18TH AUGUST: SHENZHEN SCHOOL DELEGATE VISIT

Pinjarra Senior High School hosted students, parents and teachers from China who were spending time in our region as part of their school holiday study program. The students from Shenzhen in China joined some of our Year 9 and 10 students to engage in group innovation activities for part of the day. We worked in the School's new Innovation Hub area to complete STEM and Cultural tasks such as; creating a team logo based on common interests within each team, building the best and trickiest paper aeroplanes, understanding part of our Aboriginal culture in Australia and making each other friendship bracelets, working together to remove water from a tub with only limited resources, and building alfoil boats that could float while holding as much weight as possible.

The students were shy at first, but quickly built partnerships within their teams and by recess (an Australian Sausage Sizzle and lime cordial), they were taking photos together, laughing and enjoying each others company.
All too soon, the Shenzhen students had to leave. Gifts were exchanged and a final group photo was taken. This was a great experience for all involved.

The 2026 Pinjarra Senior High School Drama Club production of Clue was a highly successful and rewarding undertaking, showcasing the creativity, talent and dedication of our students. Throughout the rehearsal and performance process, students demonstrated outstanding commitment, teamwork and resilience, developing their confidence and forming meaningful connections across year groups.

Beyond the stage, the production provided a valuable opportunity to support student wellbeing, encourage collaboration and celebrate the diverse talents of our school community. It also enabled Pinjarra SHS to share the creativity and achievements of our students with the wider community.

The success of Clue highlighted the significant contribution that Drama and The Arts make to student development, wellbeing and a positive school culture at Pinjarra Senior High School.

CANNING SHAKESPEARE FESTIVAL

On Saturday 29 August, Anouk Van Hinsberg proudly represented Pinjarra Senior High School at the Canning Shakespeare Festival, held at the Mandurah Performing Arts Centre. Performing a piece from Twelfth Night, Anouk was the youngest competitor by two years and the only public school student to make it through to the final. Competing against 13 other entrants, she received a commendation for her outstanding performance. Acting Lecturer from WAAPA, Dr Holland, described Anouk's performance as "fantastic" and commented that he had no notes for improvement. This is high praise indeed and a wonderful recognition of Anouk's talent, confidence and dedication to her craft. We are incredibly proud of her achievement and the way she represented Pinjarra Senior High School.

YOH FEST

On 31 August, we capped off a huge month of performance by heading to Mandurah Performing Arts Centre for the first day of the Mandurah Heats for YOH Fest 2026.

With this year's theme, "Health is Wealth", the team decided to take the audience on a Wonka Factory inspired adventure. There was plenty of sparkle as we took to the stage for rehearsal, followed by a full day of makeup and hair trials, getting everyone ready for the evening performance.

The foyer was buzzing throughout the day, with students getting the chance to meet teams from other schools, share their experiences and make new friends. The annual Talent Quest was also a huge hit before it was finally time for the evening performance.

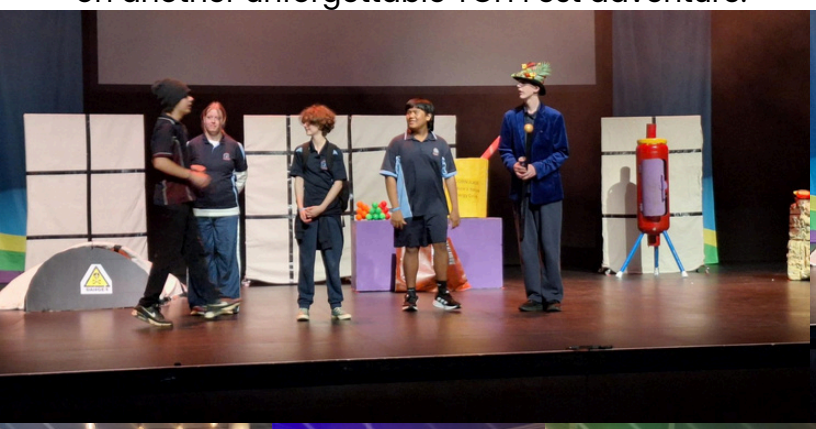

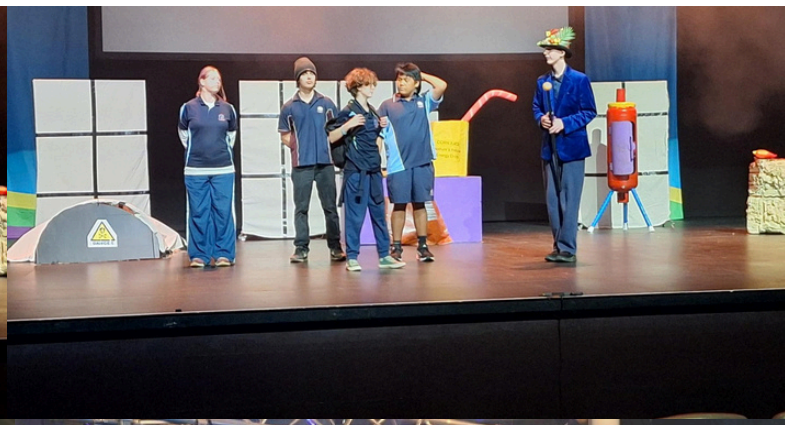

In front of a packed house, many of our cast and crew took to the stage for the very first time. Chayce, as Wonka, led the audience through a health fact filled adventure featuring fat suits, flying Red Bull addicts and a giant blueberry orb. Yes, it was every bit as chaotic as it sounds!

At the end of the night, we walked away with three awards, which is an incredible achievement:

🏆 Outstanding Set and Props Award
🏆 Karen Lyons Excellence in YOH Fest Etiquette Award, recognising a team that supports other performers, is friendly and respectful to festival staff, and creates a positive and healthy festival atmosphere.
🏆 Healthway Effective Exploration of the Theme Award

The cast and crew should be incredibly proud of these achievements. The team placed 16th out of 137 entries, also earning an award for finishing in the Top 20.

What a way to finish an enormous month of performance! We are already looking forward to next year, when a brand new Health theme will be announced and the Wonka Factory doors will close on another unforgettable YOH Fest adventure.

FROM THE LIBRARY

Recently our students were incredibly lucky to recently welcome talented author and illustrator Gabriel Evans - Author & Illustrator to Pinjarra Senior High School as part of Book Week.
Gabriel shared his stories, creativity and insights into what happens behind the scenes when an idea becomes a book. Our students had the opportunity to hear about the creative process and see how imagination, words and illustrations can come together to create something truly special.

Visits like this are a wonderful reminder that books are not just something we read. They can spark ideas, inspire creativity and open the door to completely new worlds.
A huge thank you to Gabriel for sharing his time, stories and creativity with our students!
Thanks also the Murray Library for this opportunity.

PEDAL PRIX TEAM

YEAR 7 BOYS AFL CARNIVAL

The Year 7 boys participated in a one-day round-robin AFL carnival in Mandurah, competing against five other schools. With no substitutes available throughout the day, the boys showed incredible resilience, working hard from start to finish.

They never complained, never gave up and maintained a positive attitude throughout every game. While we didn't finish on top, the boys competed hard, supported one another and represented the school extremely well.

It was a fantastic day of football, and most importantly, the boys had a great time and should be proud of their effort and attitude.

PFNA DOCKERS CUP

Our Year 8/9 girls recently had the fantastic opportunity to represent PSHS in the PFNA Dockers football (AFL) rounds, taking on teams from other schools across the district.

While the team didn't come away with a win, their work ethic, determination and positive attitude were outstanding throughout the competition. The girls continued to support one another, compete with enthusiasm and give their best effort in every game.

The competition was a great opportunity for the girls to challenge themselves, learn from each game and grow as a team. Their positive attitude and willingness to support one another made the day a fantastic experience. We are very proud of the way they represented PSHS both on and off the field.

HEALTH EXPO

Our Year 10 students recently brought health and wellbeing to life at our Health Expo.

Over five weeks, students researched a health topic of their choice, designed and planned their own stalls, and developed interactive activities and engaging presentations to share their learning with the wider school community. The Expo provided an authentic opportunity for students to take ownership of their learning while developing valuable teamwork, communication and organisation skills.

Students embraced the challenge with creativity and enthusiasm, creating a vibrant and informative event that encouraged our school community to think about positive health and wellbeing.

We were also thrilled to welcome 14 external health and wellbeing organisations, who generously shared their knowledge, resources and expertise with our students. Their involvement helped make the day an engaging, meaningful and memorable experience for everyone involved.

A huge congratulations to our Year 10 students for their creativity, hard work and enthusiasm, and a special thank you to everyone who contributed to making the Health Expo such a success.

ATHLETICS CARNIVAL

What a fantastic day we had at our Athletics Carnival this term.

The weather was beautiful, spirits were high and our students gave it their all. From the track to the field, we saw some amazing efforts, plenty of encouragement and, most importantly, fantastic sportsmanship from our students at Pinjarra Senior High School;

It was wonderful to see students supporting one another, cheering on each other and giving new events a go. There were some incredible performances, but the energy, enthusiasm and House spirit on display are what really make the carnival special.

Towns | Forest | River | Scarp | Earth

COUNTRY WEEK – BOYS BASKETBALL

After losing our first three games, the boys knew something had to change. We had a chat, reset and decided to have a bit of fun with it. A fresh mindset, some team bonding over a floating garlic bread and, perhaps most importantly, a change of uniform! The light blue jerseys were ditched, the dark uniforms came out and the boys were ready to turn things around.

Wednesday became Double Dubs Day, with two wins giving the boys some much-needed confidence and momentum. They backed it up on Thursday with another two wins, turning what had been a tough start into a 4 and 3 record. That was enough to finish third and earn a spot in the Rose Gold (Bronze) Game.

Waiting for us was Eaton, the same team that had beaten us earlier in the week. This time, though, the boys were ready. They played with plenty of determination and belief and showed the Pinni spirit that had got them this far. In a great finish to the week, they held their nerve and came away with the win.

Going from three straight losses to four consecutive wins was a fantastic turnaround. The boys showed that when you stick together, learn from your mistakes and keep backing yourselves, things can change pretty quickly.

There were plenty of standout performances throughout the week. Adryan grew in confidence and found some much-needed shooting form, while Kobe, Xander and Braiden brought plenty of full-court hustle, chasing down loose balls and making things difficult for the opposition. Huntah took on some important defensive match-ups, while Tahj was strong on the boards and pulled down some crucial rebounds when we needed them. Kaleb led from the front all week, showing great leadership, setting the standard and stepping up when his team needed him. A big thank you also to Lachlan, who came along despite his injury to support the team and share his knowledge.

It was a privilege to coach this group. They worked hard at training, were willing to learn and were always keen to listen and try something new. But it was not just the basketball that made the week special. The laughs, the banter and everything that happened away from the court were just as memorable.

10 YEARS OF ALCOA PROSPECTS

ALCOA AND PSHS ARE CELEBRATING 10 SUCCESFUL YEARS

Were you one of the over 300 students in the Year 10 Alcoa Prospects Program?

As a former 'Prospects', you are invited to this Year's Graduation.

- Date: 21 October 2026
- Time: 9:30 am start - please arrive a little early to sign in
- Concludes: 10:30 am

RSVP: 13 October 2026 - to Julie Gray - julie.gray@education.wa.edu.au
(please include your maiden name if name has changed)

We look forward to seeing you there

Alcoa

ALCOA – SPEED CAREERING

The final event before the Year 10 Alcoa Prospects Program Graduation this year was Speed Careering. Students had the opportunity to meet 10 role models from diverse backgrounds, with each bringing a wealth of experience to the speed careering conversations. The fast-paced format gave students the chance to hear the guests' career backstories and discover the different pathways that led them to the resources industry. Students were encouraged to make a strong impression by introducing themselves confidently, making eye contact, sharing their elevator pitch and showing genuine interest in each conversation.

Students enjoyed a morning tea at the end of the event, providing a more relaxed opportunity to chat, network and make connections. Questions ranged from what inspired Alcoans to choose their careers and what advice they would give their 15-year-old selves, to subjects to consider at school, work experience opportunities, rosters and how students could work towards a career in the resources industry.

Mrs Julie Gray, Career Practitioner

Alcoa

CAREER LEARNING

YEAR 7 DEAR ME: A LETTER TO MY FUTURE SELF

Dear Year 7 Me!

Right now, I am 12 years old and I like _____. Something I am good at is _____ but one thing I would like to get better at is _____. When I think about my future, I might like to be a _____ or maybe _____. By Year 12, I hope I have _____ and _____.

From, Year 7 Me

P.S. Remember: You cannot be what you do not know… so keep exploring and using all the opportunities you get in school to try stuff out! Be aspirational, you can consider anything…

What might your future look like? Our Year 7 students have started their career learning by looking ahead and imagining the possibilities. Students wrote a Dear Me letter to their Year 12 selves which will be safely tucked away until their Year 12 Presentation Evening, when students will receive them back and discover just how much they have grown, changed and learned along the way. Their future does not need to be decided in Year 7; it just needs to be explored!

Mrs Julie Gray, Career Practitioner

YEAR 9 – PATHWAY PLAN

Your pathway plan is your chance to explore,
What you might do, and what's in store.
Dream up some options, give things a try,
Your future is waiting, why not aim high!

Check off your USI, get your résumé done,
Use the resources on Connect… learning can be fun!
Think about your strengths, your skills and your goals,
There is more than one pathway to future roles!

Stuck on a question or not sure what to do?
Mrs Gray in the Futures Office can help you through!
With pathways, résumés and careers to explore,
Pop in for a chat at the Futures Office door!

Mrs Julie Gray, Career Practitioner

GET INTO RESOURCES

Three groups of Year 10 students trekked, in the early morning, to North Metropolitan TAFE, accompanied by Mrs Boardman, Mr Martin and Mrs Gray for Get Into Resources, with one group following ATAR pathways and two exploring VET pathways.

The day began with a keynote address before students received their show bags and launched into a packed program of hands-on workshops and an industry expo.
Students tackled activities ranging from drones, lasers and mine technology to engine rebuilding, Cyber Pursuit, Ore-some Creations, trucks and "Hit the Red Dirt." The ATAR group investigated mystery components using the colour spectrum, followed Earth layers to locate ore and even created a website. With more than 150 different careers across the resources sector, the day highlighted just how many pathways are available beyond the jobs students may already know about.

Congratulations to Year 10, Chianna McVay (Forest) and three of her friends who have won a visit to Rio Tinto's Operations Centre in Perth in Term Four.

A huge thank you to Get Into Resources for sponsoring half of the bus cost and to David Bolt MLA for sponsoring the remaining half. This support gave our students the opportunity to experience an outstanding, hands-on careers event and explore where their future may take them.

Mrs Julie Gray, Career Practitioner

get into resources

INSPIRING GIRLS FORUM – OPTUS STADIUM

Two groups of Year 10s, accompanied by Mrs Gray, headed to Optus Stadium for the 2026 CME Inspiring Girls Careers Forum. Alcoa and South32 sponsored the tables for our PSHS students. The annual event showcases the diverse career opportunities available to young women in the resources industry. The forum is an opportunity for female secondary students to meet successful women in the sector, explore career pathways and build connections with industry.

The students heard from inspiring role models, took part in Speed Careering and worked as a team on a simulated mining challenge where the Alcoa table mining team won the competition and the South 32 team found gold! Students explored the careers expo, where they had the opportunity to chat informally with representatives from a range of resources companies.

The students represented PSHS with excellence throughout the day and were unanimous in their verdict… they would recommend the event to next year's students and, given the opportunity, would happily come back themselves!

Mrs Julie Gray, Career Practitioner

SOUTH32

NATIONAL SKILLS WEEK
AUGUST 24 - AUGUST 30, 2026

NATIONAL SKILLS WEEK

National Skills Week was recognised at PSHS with a focus on this year's theme - Life Changing.

Students are reminded that there is no single pathway to success. A new skill, experience or connection can lead to opportunities and careers you may never have considered.

From apprenticeships and traineeships to VET courses and hands-on learning, skills can change futures. You are encouraged to stay curious, keep learning and explore where your interests and strengths may take you.

Same age. Different interests. Different strengths. Different futures. Sometimes one opportunity can change everything.

·An excellent website resource for students and parents: https://myfuture.edu.au/
·Quiz in resources: https://www.jobjumpstart.gov.au/
·Take the free 7-minute Career Quiz at https://skillsroad.com.au/
·Check out this site: https://www.yourcareer.gov.au/

Mrs Julie Gray, Career Practitioner

UWA ASPIRE INCURSION

This term, PSHS welcomed The University of Western Australia (UWA) aspire Team to the school for a series of engaging Uni Discovery incursions. It was a great opportunity to discover what is possible and realise that there are pathways beyond the careers students already know about and that the subjects they enjoy today can lead to unexpected possibilities tomorrow.

Our Year 9 and 10 students took part in Uni Discovery: Careers, exploring the wide range of careers and study pathways that can grow from university.
Our Year 8 students got hands-on with Stratigraphy Unearthed, discovering the science of reading the layers of the Earth and exploring how geology can connect to real-world careers and industries.
Our Year 7 students also had the opportunity to get involved, with students signing up through an expression of interest to take part in Uni Discovery: Self, focusing on discovering more about themselves, their interests and their future possibilities.

PERTH SKILLS WEST CAREERS & EMPLOYMENT EXPO

Perth SkillsWest
careers & EMPLOYMENT expo
TERTIARY ▸ SKILLS ▸ TRAINING ▸ JOBS

Year 9 & 10 Students Explore Future Pathways...

Two busloads of Year 9 & 10 students headed to the Perth SkillsWest Careers & Employment Expo, accompanied by Mrs Gray, Ms Boardman, Ms Hall and Mr Martin, for a day of exploring future careers and pathways.

With a huge range of exhibitors from education, training, employment and industry, students had the opportunity to talk directly with organisations and discover pathways they may not have previously considered. You cannot be what you do not know. Some students stepped into the Try a Skill Zone, where they had a go at practical skills and experienced different career areas for themselves.

Students came away with ideas, useful career resources, and, most importantly, new experiences and possibilities to think about as they continue planning their future pathways.

Mrs Julie Gray, Career Practitioner.

HEALTHY CHOYCES & WELLBEING Program

A practical, strengths-based wellbeing program for young people aged 14-17. Focusing on wellbeing, connections and life skills.

Designed to build the skills they need to:

- Navigate relationships
- Navigate emotions
- Discover their identity
- Enhance their decision making
- Handle the ups and downs of life

Details: (more on back)

Term 4 - Young Men's Program (ages 14-17)
Held in Pinjarra
Wednesdays from 4pm-6pm

January 2027 - Intensive Program (all welcome, 14-17)
Held in Pinjarra
Wednesdays and Thursdays from 12:30pm-3pm

Choyces
Children and Youth Community Services

CONTACT US NOW:
youthadmin@choyces.org.au

5 QUESTIONS YOU MAY HAVE .....

WHO	Choyces has been working with children and youth since 1993. You may have known us as Peel Youth Services. In recognition of the increased demand for wellbeing programs for all school age children, in 2021 we changed to Choyces - Children and Youth Community Services.
WHAT	These 2 programs have been created to support young people (14-17) to build practical skills, have conversations about things that matter and connect with others.
WHY	Choyces is an independent not for profit organisation that is not affiliated with any religious organisation. All of our youth workers and facilitators are trauma informed and the programs we deliver are evidence based.
WHEN	The Young Men's Program runs in Term 4 of 2026 on Wednesdays from 4pm-6pm at Murray House in Pinjarra. The January Program (all students) starts in 2027 and is an intensive program that runs from 12:30pm-3pm on Wednesdays and Thursdays. Starting on the 6th and 7th of January through until the 27th and 28th of January.
HOW	Young people can refer themselves, or can be referred by parents/carers, schools, youth workers, community organisations or other support services. Parent/carer consent is required for participation. We can be contacted at **youthadmin@choyces.org.au** for referrals, or if you have any questions.

HEALTHY CHOYCES & WELLBEING PROGRAM

WELLBEING • CONNECTION • LIFE SKILLS

A practical, strengths-based wellbeing program for young people aged 14–18, designed to build the skills they need to navigate relationships, emotions, identity, decision-making and the up's and down's of life.

TERM 4 | BOYS PROGRAM
For boys aged 14–18
Murray House, Pinjarra
4:00pm–6:00pm | After school

- Dinner
- Connection
- Mentoring
- Psychoeducation
- Practical skills

REFERRALS WELCOME

Young people can be referred by themselves, parents/carers, schools, youth workers, community organisations and other support services. Parent/carer consent required for participation.
