Follow your dream.

Take one step at a time and don't settle for less,

Just continue to climb.

Follow your dream.

If you stumble, don't stop and lose sight of your goal

Press on to the top.

For only on top can we see the whole view,

Can we see what we've done and what we can do;

Can we then have the vision to seek something new,

Press on.

Follow your dream.

Principal's Message

This Year Book is a celebration of many of your high school memories and it will be something you can look back on and enjoy in the years to come.

During your five high school years, whether you were at Pinjarra SHS throughout, or spent some of your time at Waroona DHS or other schools, you have grown into young adults of whom we can all be proud. Your teachers consistently comment about the terrific bunch of young people you are and about how proud they are of you.

Your class has successfully navigated through a period of great educational change. New senior school Courses of Study, the expansion of Work Place Learning and the introduction of TAFE Certificates into many students' courses have occurred during your high school years. The combination of school and TAFE has been taken up by more students in this class than was available to previous groups. Your class has consistently shown the spirit, generosity and behaviour we seek of students at our school.

On behalf of the Parents and Citizens' Association, the School Council and the Pinjarra Senior High School staff, congratulations on your completion of high school and best wishes for your futures. We know you realise that what comes next is essentially in your control and we are confident that you have the aptitude and skills to take on the opportunities and challenges will arise for you.

Sincerely

A handwritten signature in black ink that reads "Beth Aitken".

2011

It's hard to know what to say when you have to sit down and reflect about the last 5 years of your life with a bunch of stinky teenagers. The fact of the matter is that I have been very fortunate to spend these years with a group of young people that have grown into mature (mostly), responsible (mostly), intelligent

(mostly), funny (mostly) young adults. In ten years time when the Invitation to your school reunion comes in the mail, no doubt you will pluck the 2011 Pinjarra Senior High School Yearbook off the shelf and start to reminisce about the good old days where fuel was \$ 1.35 and you could get 2 litres of milk for two dollars and there was no such thing as flying cars. You may even cast your mind back to the friends that you had or still have and the teachers and events that changed or had an impact on your life.

Twelve years of school is a long time but no doubt it will be your high school years that you remember the most (more than likely because you were fortunate enough to have me as your year co-ordinator). Now regardless of whether you liked me or not I can honestly say that for the most part I had a terrific time as your year co-ordinator. In any relationship that spans over 5 years there are bound to be some ups and downs but as you dump me and move on with the next phase of your life I would like remember some of the good times.

Year 8 camp was the start of it all; bright eyed bushy tailed and chubby cheeks, especially for some of our boys like Troy, Lloyd, Matt Elliot, Jordan and Alan. Needless to say they lost the chub but kept the cheek. Mikey still had bright red hair, Mel Tucker and Aaron Matson were practically inseparable. Mr Green Jnr ran a terrific rock and water session and Mr Mitcham nearly died when he turned up to camp only to see you guys thundering down a flying fox that belted into a tree where the only thing that stopped you from getting whiplash was a giant star picket and a mouldy old seat belt. "Good Times!" We had pizza making, movie watching, Kings' Carnival and Adventure World incentive days in which most of you

guys participated. Such is the quality of this year group. We also had World Cup days and swimming carnivals where Kyle, our human fish, tried to set new world records, and the memorable Alan Retzlaff graced us with his version of the borat mankini! Yes I did get suspended for that.

Some of you went on the Canberra trip where you learnt a lot about our nation's capital. Oh yeah and you went skiing where there were many bruised bums and broken bones. Typical Bonser always the centre of attention! The PFA guys went to Melbourne to visit their football idols only to have me save Matt Bee's life and outrun Mr Galloway as we chased a tram down the middle of Flinders Street on a Sunday afternoon (These stories are how legends are made.) Good times!

Do you remember our year group assemblies, all the conversations we had, about bullying, peer pressure, dealing with stress? We even had the sex talk! My favourite of all, however, was the Mr Pittman's top ten ideas for a first date, I still chuckle a little bit as I remember the awkward look on your faces. I wonder how many of you followed one of my tips for your first date?

However the best thing about being your year co-ordinator was watching you grow up into young adults and turning into the people you are today. I have very much enjoyed the casual conversations I have had with you all and hope that all your dreams and ambitions come true. To sum up the 5 years I'd like to finish with a quote from the wise man Ron Burgundy. "We are laughing and we are very good friends. Good buddies sharing a special moment, laughing and enjoying our friendship, and someday we'll look back on this with much fondness."

Peace Out.

2007 Camp

Dear Class of 2011

Five years is a long time, but the time between your year eight camp and your graduation has passed very quickly. You now join the many students who have successfully completed their schooling at Pinjarra Senior High School. Many of you have spent more than a quarter of your life at Pinjarra and we have watched you grow and develop from lost and nervous year eights into responsible young adults and leaders of the school

Your success can be measured in many different ways. For some to complete 12 years of school is itself a substantial achievement. Well done to the students who have excelled, academically, in the sporting arena and through community service. I look forward to those achievements being acknowledged on graduation night because while they are your achievements they are also your parents' and the school's achievements and we are very proud of you.

Equally we are proud of the people you are growing into and proud of the maturity and responsibility you display as young adults. A true measure of your character will be how you carry yourself in the future, in your study, your work, your friendships and in your relationships.

I wish you well for the future and look forward to hearing of your future success. I hope you have fond memories of your time at Pinjarra Senior High School and that you go on to be the best that you can in whatever field of endeavour you choose. Above all else I hope you stay safe and make safe decisions. Good luck.

Mr Paul Mitcham

A Message to Y12's - 2011 – Deputy Principal

I have had the pleasure of knowing you, the Year 12 class of 2011, for the five years of your schooling at Pinjarra SHS.

It may not become apparent for a number of years the achievement of successfully completing twelve years of schooling but you should leave with a sense of pride that you've persisted to this point. Reflect

back on those who aren't with you, who found other paths rather than see through their education to Y12. Some will also find success in their lives but there is no doubt by staying at school you accepted a great challenge that should provide you with a greater variety of choices.

I often identify four Habits of the Mind that are corner stones to ensuring success at school. They are: confidence, organisation, persistence and getting along with others.

Belief in yourself and reinforcement from others underpins confidence. You will have needed a lot to get this far. This last year is probably the toughest and your self belief would have been tested on many occasions. Hopefully the support you have received from this school and your family would have enabled you to remain confident in your ability to succeed.

For many years I've observed that it isn't necessarily the naturally bright and gifted that are the most successful at school, it is more often the hard workers and these people are usually well organised. Organisation is a learned skill and if you've mastered it you have a critical building block to future success. Balancing study, work, leisure, family commitments and other demands on our time is a challenge for anyone.

It's all very well to be confident and well organised but a key corner stone is persistence. As the saying goes: When the going gets tough the tough get going. Stick at it and persevere through the challenging times and seek support when you are flagging. Don't give up.

This brings me to the fourth and probably most critical Habit of the Mind for life long success - getting along with others. It's critical to maintain relationships, with your family, friends and teachers. People who work at communicating effectively usually find that others are there for them in times of need.

When you reflect on your time at school over the last twelve years you will recognise times when you've succeeded with having these Habits of the Mind and others when you will have been found wanting. The most important outcome is to always seek growth and improvement and be a lifelong learner. Hopefully your education at Pinjarra Senior High School has set you up well to do that.

Best wishes for the future

Mrs Meredyth McLarty

A few moments of your journey through your high school years at Pinjarra Senior High School

Chappo's Contemplations

Yr 12's of 2011

What? You're leaving??

Okay, I'll admit I did know this was coming but I'm going to miss you guys all the same! It's been a real privilege sharing in your lives over these last five years (maybe a bit less for some of you ring-ins from Waroona DHS etc. ☺), and in that time seeing you go from cute but loud little Year 8s to not-so-cute but still really loud young adults, and friends. How does it feel having 12 years of schooling

finally over with?? Yeee-Haah!!

Thanks to all of you who over the years trusted me to be able to support you through the difficult times, and times of grief, and thanks also to all of you for allowing me to share in the good times and the laughter. There's been a heap of them. It's been great sharing time with you on camps (that doesn't include time on the bus with Kamdyn's toxic emissions...) & all sorts of excursions, at assemblies (yay...), glamorous balls, Peel carnivals, World Cup Days (it's not often you get to shoot at students), concerts, Yohfest, Countryweek events and Pinjarra Idols. I even got to spend a week in Canberra with a number of you and survived out-of-control students cannoning past me down the ski slopes... not mentioning any names... Ashleigh!! And despite all your harassment about my bus-driving you have to admit no-one has ever actually been hurt when I've been at the wheel... a little scared maybe, but only Jesus is perfect – I just try and reflect him ☺

On that note I hope you have appreciated the Lifeskills sessions I've organised for you over the years, not just challenging your values, goals and aspirations, but hopefully alluding to the fact there's a loving God who's absolutely crazy about you and who really wants to help you enjoy the best possible life you can!

Now, as you follow your dreams I pray you find rich blessings in new relationships, new interests and new horizons, and although you've now finished school, please do come back sometime and say hello. I love hearing what ex-students are up to, and I'm always willing to lend an ear if you find you need one (especially if you come bearing KFC...).

Take care leaving class of 2011, and enjoy the next exciting chapter in your lives!

Justin Hill

To my teachers: Gotta catch'em all - Wagers. - **Stephen Cammiade**

I entered PSHS in 2010. My best memories of high school years are coming up with random conversations at recesses and lunches with Jonah and Stephen.

In 5 years time I most likely will be travelling and partying; and in 10 years time, I most likely will be in hospital with broken arms and legs after suiting up and hitting on some dude's girlfriend.

To my Year group: I'm going to be Hokage. Believe it!! To my teachers: I caught a Charmeder. - **Luke Knight**

I entered PSHS in Year 8. My best memory of my high school years is the Canberra trip in Year 10. In 5 years time, hopefully I will be backpacking around Europe.

To my year group: Thanks for everything. I couldn't have gotten through school without you.

To my teachers: Thanks for helping me graduate high school. - **Chrystal Betson**

I entered PSHS in Year 11. My best memory of my high school years is? I haven't had it yet, cause I haven't left Year 10 at Waroona District High School.

In 5 years time I most likely will be a personal trainer, and in 10 years time, I most likely will own my own Gym.

To my Year group: I want to thank you all for being great mates.

To my Teachers: Thanks for teaching me. - **Damien Young**

I entered PSHS in Year 8. My best memories of my high school years are Country Week 2010 and 2011.

In 5 years time I most likely will be a recovery drug addict, and in 10 years time I most likely will be a Porn-star.

To my Year group: Goodbye and farewell to you all.

To my teachers: Cheers for the help - **Jeffrey Carter**

COACH COMMENTS (for the week)

Asha: "Great games this week, well done!" Ali: "On fire!"

Summary:

This was a great week and the Pinjarra Netball Team put up a fair fight. Good skills were shown by all players and there was little, mainly no drama at all.

Unfortunately there were no wins but this didn't let the team down too much but there is always next year. I'm sure the team will do well next year so best wishes for Country Week 2012!

As a part of **Year eleven and twelve 1C/D English**, students were required to present an Instructional talk to the class on a skill of their choice. Here are some of the more memorable moments:

Kamdyn McIntosh demonstrated his different coaching styles, while putting lives at risk trying to teach the class how to kick a football.

Riese Wilkey bringing his full length fishing rod to school, to teach the class the correct procedure for casting off.

Jaclyn Boderacki making Banana Splits.

Dana Mammone teaching the class how to ice a cake using her Grandmother's recipe.

Stephen Cammiade teaching the class how to land a plane

Miss Richardson showing them all up by demonstrating the best way to make Rocky Road.

A day in our English classroom

Other instructional talks included:

- Ali Turpin demonstrated how to create balloon animals including a very stylish turtle wrist band.
- Matt Nancarrow taking 10 minutes to teach the class how to make 2 minute noodles.
- Troy Rosenthal forcing everyone to do aerobics under the guise of teaching us the safest way to stretch.

Teachers. your best memory of our year is ..

That the YEAR 12 DS

— By Mr P Gwilliam

They came in their two's and in their three's
All ready to work if you please
Some came early some came late

With a "Heh Gwilly, how's it going mate?"
In they came with out a care
Just to sit near a friend with an ipod to share

There were the gossips who sat at the back
They did little work and were really quite slack
But the most popular topic of them all
Was all about the Year 12 School Ball
Who are you going with? What will you wear?
And the post ball party will you be there?

Others an education they did not seek
For them school was all about Countryweek
It enabled those not so academic to excel
For at sport some did really do quite well
About study and revision they did not care
Just the smell of testosterone and linament
in the air

Then there were the drama queens
Just about everything they would scream
"It's not fair you're picking on us."
Not content unless they created a fuss
"Ladies", I asked as my head began to throb.
When talking please ensure you turn down the
volume knob."

Of personalities there were quite a few
With lots to say and little to do
Now young Tim Wren definitely
wasn't shy or mellow
Even his whisper was more like a bellow
And on bended knees I would beg
"Can't you control him, please please Meg?"

And then there was dear Dana
Mammone
All she wanted was to be left alone
"I'll work soon she said," with the
sweetest smile.

"But now I'm talking to Ruby for a while.
About boyfriends, makeup, shops, the
important stuff.
So, chill out man and don't be so gruff."

Then there were the footy boys, Jeff and Kam
"Hey Gwilly were doing Davo's tipping
again.

With us to help her she's sure to win"
"Just like the Dockers, "I said with
a grin

Go tell Davo it's not a sin.
If she picks the Magpies there's a chance she
could win.

The lights went off but no one was home
So this hard working lad was left all alone
Locked in the library at recess all by himself

With 10,000 books watching from on the
shelf
But I bet in the future when it's time to
go
I reckon Matt Bee won't move so slow

Then there's Brody Cooper with her
dyed red hair
Not to give her a mention just
wouldn't be fair
Being given the nickname PM wasn't
that hard
For she looked liked our leader dear Julia
Gillard

"But I'm not really a ranga" and her temper
would flare
"You're just saying that cause I dyed red my
hair."

Yet amongst the Year 12s there was a real pearl
I'm sorry boys but it was a girl
Her manners, behaviour, charisma
and grace

Ensured she finished in first place
I thought this girl was really swell
Little Miss Tucker, known simply
as Mel

Pinjarra Senior High School FLEEC Program

FLEEC is an abbreviation of what our Program consists of, a Flexible Learning Educational Engagement Centre. This program is designed specifically for year 11 and 12 students who can achieve WACE through a combination of practical endorsed activities and curriculum subjects along with learning basic life skills through hands on experience.

A week in the life of a FLEEC student is spent 3 days in class or in the FLEEC compound completing Curriculum subjects, one day at work placement of their choice and every Friday spent at Wandalup farms undertaking their certificate II in Rural operations.

Class 2011 Valedictory Address

- by Ashleigh Lewis

Good morning everyone

I am proud to give the speech today on behalf of our year group.

It was nearly 14 years ago, when we walked into our very first classroom. Some of us balled our eyes out and clenched at our mummy and daddy's legs. Some walked in ready to be cheeky and cause mischief, and others walked in giggling and smiling. But we all had one thing in common – we were terrified.

Now, almost double the height of what we were 14 years ago, we are once again terrified of what is to come. But we are also excited at the same time. Some of us may again ball our eyes out, and some maybe ready to keep causing mischief. But I know that most of us are going to be laughing and smiling, because this time, we are not starting school for the first time in our lives, but finishing Year 12 as mature young adults, and facing the real world for the first time ever.

When we were little, we had dreams of what we wanted to be when we grew up. Now we perhaps have to be a bit more realistic with what we can achieve. We have to seriously consider our futures as this is now our reality.

In Primary school, our teachers helped us learn the basics of life through fun and games. Although we did think reading 10 pages of a book for homework was dreadful and would take forever! And learning our times table seemed tedious! Lower School became a competition to see who could be the 'coolest kid' and we got a small taste of what it might be like in the real world. Some of us experienced things like Swimming and Sports Carnivals in Year 8 and 9, the Canberra Trip in Year 10 and World Cup Day throughout all years. Then we moved onto Year 11 and 12. And although it was hard work, it was worth it to most of us because now we truly are mature young adults and are ready to step out into the real world. I believe the true friends that we've had throughout all of our schooling years have given most of us the strength to keep moving forward in our lives and to mature into who we are today. Our friends and teachers have all helped us 'grow up' throughout all of our years at school.

So on behalf of the Year 12s at Pinjarra Senior High School, I would like to thank all of our teachers for teaching us the things we will need to get on in life, especially Mr Pittman, for being there for us throughout the last 5 years, thank our friends who help us through our struggles, and our parents, who have had to put up with us.

I would like end my speech with the words of Roald Dahl: "Watch with glittering eyes the whole world around you because the greatest secrets are always hidden in the most unlikely place. Those who don't believe in magic will never find it."

Thankyou
